Skydeck USA

SD Hand Tool

The SD Hand Tool allows small pedestal height adjustments without removing installed pavers. The galvanized steel T-handle provides manual control for fine leveling.

TECHNICAL DATA

Handle length	4.72 in
Overall height (approx.)	6.1 in
Overall width	0.28 in
Weight (approx.)	2.12 oz (0.132 lb)
Material	Galvanized steel
Color	Silver
Adjustment type	Small manual height adjustments
Packaging	1 tool per bag

USES

1. Fine adjustment of pedestal height
2. Levels installed pavers from above
3. Reduces the need to lift pavers for adjustment

SUPPORTED APPLICATIONS

SkyJack SD-M pedestals
SkyJack SD-L pedestals
SkyJack SD-XL pedestals

INSTRUCTIONS FOR USE

1. Use with SkyJack SD-M, SD-L, or SD-XL adjustable pedestals.
2. Keep all weight off the pavers being adjusted. Do not stand on the pavers while operating the tool.
3. Insert the tool through the paver joint and engage the pedestal adjustment point.
4. Turn the T-handle to make small height adjustments. Check the paver surface with a level as you work.
5. Remove the tool and confirm that the pavers are level, stable and fully supported. Keep joints and drainage paths clear.
